

THANKS!

To our conference sponsors and donors:

- ◆ Lockheed-Martin
- ◆ Lockheed Martin Leadership Association, Bangor Chapter
- ◆ Olympic College Department of Mathematics and Science
 - ◆ Olympic College President
- ◆ West Sound Education Consortium

Important Information

PLEASE NOTE:

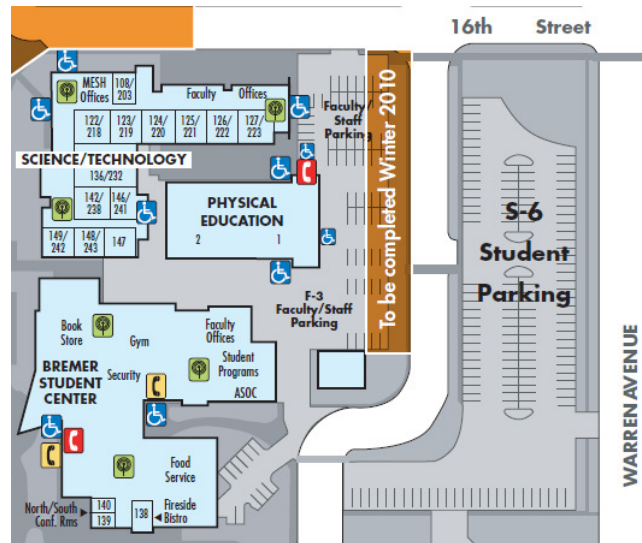

- ◆ Registration begins at 8:30 a.m. **Please do NOT** arrive before that time as staff will not be prepared for you.
- ◆ All students must be picked up by **12:45** p.m. at the Bremer Student Center.
- ◆ Olympic College is wheel-chair accessible.
- ◆ **Make a copy of your form for your records.**

Bring a sack lunch
& a Beverage!

Morning snack will be provided

SCHEDULE

- 8:30-9:00 Registration
- 9:00-9:15 Welcome /Orientation
- 9:30-11:00 Adult Workshop
- 9:30-10:10 Student Workshop #1
- 10:20-11:00 Student Workshop #2
- 11:10-11:50 Student Workshop #3
- 12:00-12:45 Lunch and Closing Activity

**A CAREER CONFERENCE
FOR 5TH -8TH GRADE GIRLS
PRESENTED BY WOMEN FOR FUTURE WOMEN
PLUS:
AN ADULT WORKSHOP**

SATURDAY, MARCH 17, 2012
9:00 a.m. - 12:30 p.m.
Olympic College Bremer Student Center
Registration at 8:30 a.m.

WORKSHOP GOALS:

- Increase girls' interest in mathematics and science through positive hands-on experiences.
- Foster awareness of career opportunities for women in math and science related fields.
- Provide students an opportunity to meet women working in non-traditional careers in math and science related fields.

Workshop Choices

1. Behind the Badge

Ever wonder what it's like to respond to calls as a police officer or work in a jail? Come participate in activities and learn about some of the exciting things that women do in the Law Enforcement field. An eye opening experience guaranteed.

2. Blast Into the Future

How does a rocket reach outer space? Learn the basics of rocket design and test your new knowledge by flying your own rocket.

3. Build-it & They Will Come!

Learn how mathematics is used in building things. Take home a project built by your own hands.

4. Fun With Chemistry

Discover the magic of chemistry with experiments of wonder and awe, yea even apart from the magical domain of Hogwarts! Your chemistry "potion master" will show you how to produce green fire (with adult supervision) and your own slimy slugs. Wands not required...Muggles encouraged to apply!

5. Call 911!

Save the day! Smother a fire and learn emergency first aid. Check out the insides of an ambulance and learn what it takes to be a fire fighter.

6. Finding the Right Balance

Finding the Right Balance. Explore the importance of exercise including strength, flexibility & balance training utilizing current Physical Therapy techniques.

7. No More Bad Hair

Science and Math in hair, skin, and nails? Yes! Explore the world of cosmetology and learn how to have great hair and skin.

8. A pinch of this, A pinch of that

See how math, science, and reading make a difference in all your cooking endeavors.

9. Meow, Bow-wow

Veterinarians have to learn a new language to understand what's wrong with animals. Learn how to check your pet's health and to read clues for understanding pet illnesses.

10. Leaning Tower of Pasta

Have you ever wondered how really tall buildings stay up or why don't skyscrapers fall down when wind hits them? Using spaghetti and marshmallows, you will experiment with different structures to determine which ones are the strongest.

11. Woman in the Cockpit—Boldly Go Where Few Women Have Gone Before!

Flying is one of those things people tend to want to do their whole lives...but very few take the initiative. Most Astronauts very often start out as pilots. Using hands on technology, learn what it takes to fly an airplane or even a Space Shuttle!

12. Wild Lives

Do you do know what to do if you find an injured eagle? What is involved in protecting Washington State wildlife? Learn the answers to these questions from women who help wildlife everyday.

13. Wild, Wet, and Wonderful

Come get immersed in the wonderful world of water. You will do hands-on experiments and learn information about careers in the Health Department.

14. Fun with Air Pressure

Air pressure is the weight or force of the atmosphere at any particular point. Although you can't feel it or see it, air pressure plays an important role in many areas and can be demonstrated with some fun experiments.

15. To the Beat of My Heart

Why would your heart race if Justin Bieber walked up to you? Why do people faint? Come and see what you can learn about your pulse and blood pressure.

ADULT WORKSHOP

Pygmalian Effect

Carol Evanoff will discuss how one's beliefs about people can help them reach their potential. Studies in classrooms and how it affects grades. Blue eyes, brown eyes experiments. Her own experience of having a mentor who believed in her.

Pre-register by Friday, March 2, 2012

Please make check payable to:

Olympic College GEMS

FEE CODE GM

Mail check and registration to:

O.C. Cashier's Office

1600 Chester Avenue

Bremerton, WA 98337-1699

PLEASE PRINT LEGIBLY
