

2008 GHC Report for Olympic College (for the calendar year 2007)

Source	Volume (CO2 Metric Tons)
Building Heating	1,541
Electricity	365
Commuting	10,015
Air Travel and College Fleet	402
Solid Waste and Waste Water	75
Water	65
Paper	65
Total	12,463

The following areas are deficiencies in our data. Olympic College is currently developing methods for collecting this

- Ferry commutes not collected
- Other commute data is estimated
- There is no data available on Taxi, Ferry and Rental Car travel
- There is no data available on air miles for students
- There is no data available on study abroad air miles
- There is no data available on refrigerants and chemicals
- There is no data available on fertilizer
- Wastewater treatment volume is estimated
- Paper use is estimated (CO2 emissions based on 25% recycled content -- actual is 30%).

2008 GHC Report for Olympic College Commutes (for the calendar year 2007)

Source	Volume (CO₂ Metric Tons)
Faculty / Staff	1,407
Students	8,608
