Attention Students!

Mandatory Advising is Now Required. Start Planning Ahead to Avoid the Rush!

All students are now required to meet a new mandatory advising requirement. Students must:

1. Meet with an advisor before completing 15 credits.
2. Prepare an education plan. **A faculty advisor must approve the plan before students complete 45 credits.***

Meet with your faculty advisor as early as possible to begin your education plan.

The new requirements are designed to help you save time and money by taking the right classes and planning ahead. **It's a "road map" to help you stay on track to graduate.**

For more information, please contact your advisor today!
