

CLNA Student Survey Results

2023

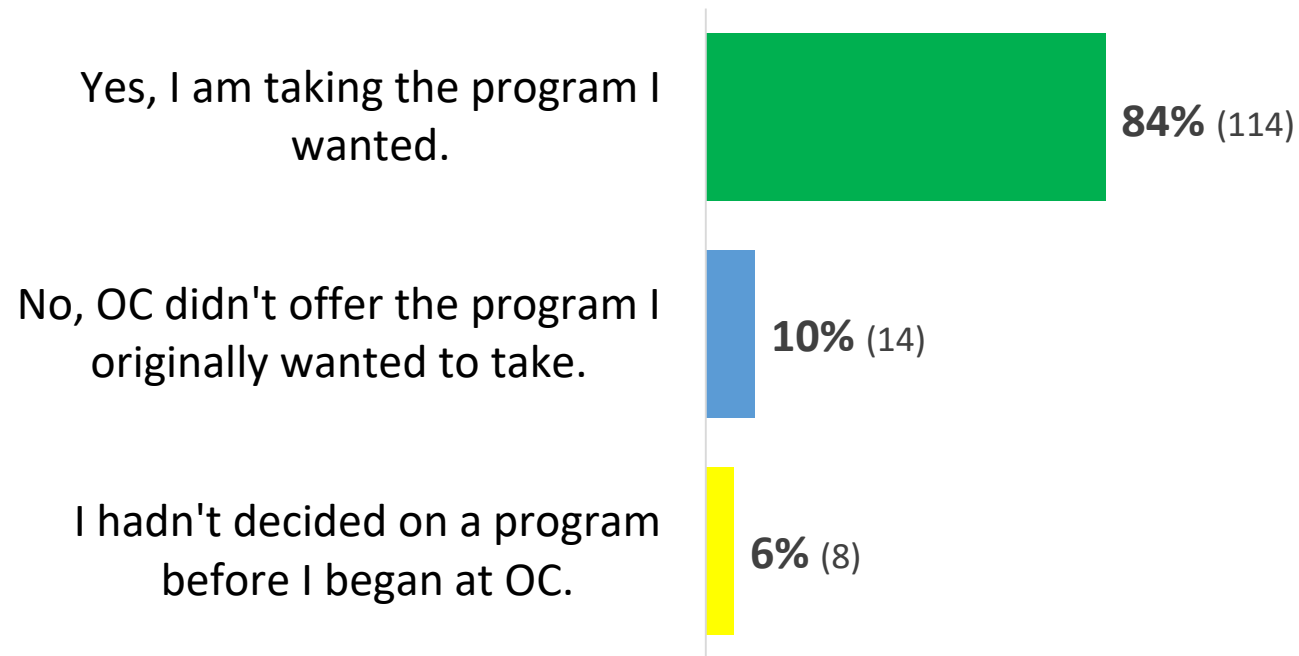

If you have completed two quarters or more, what grade would you give your program?

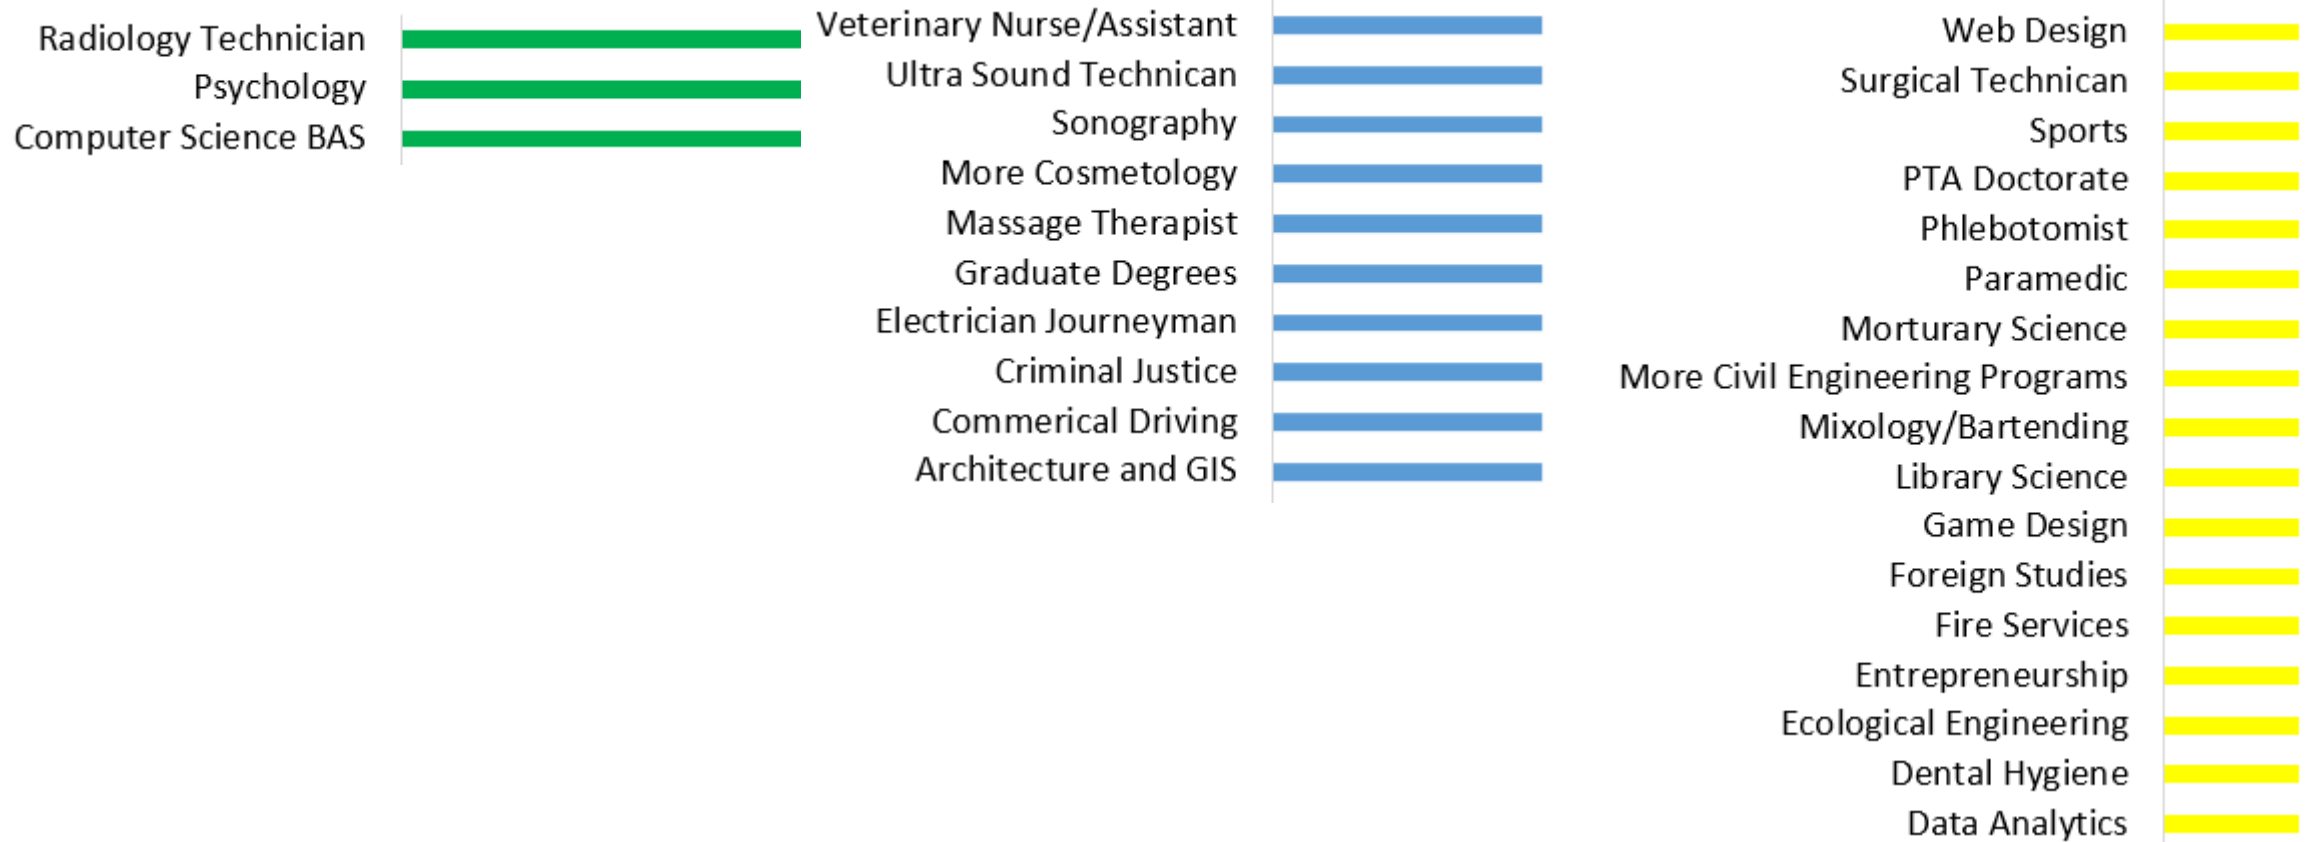

What are your educational goals at Olympic College?

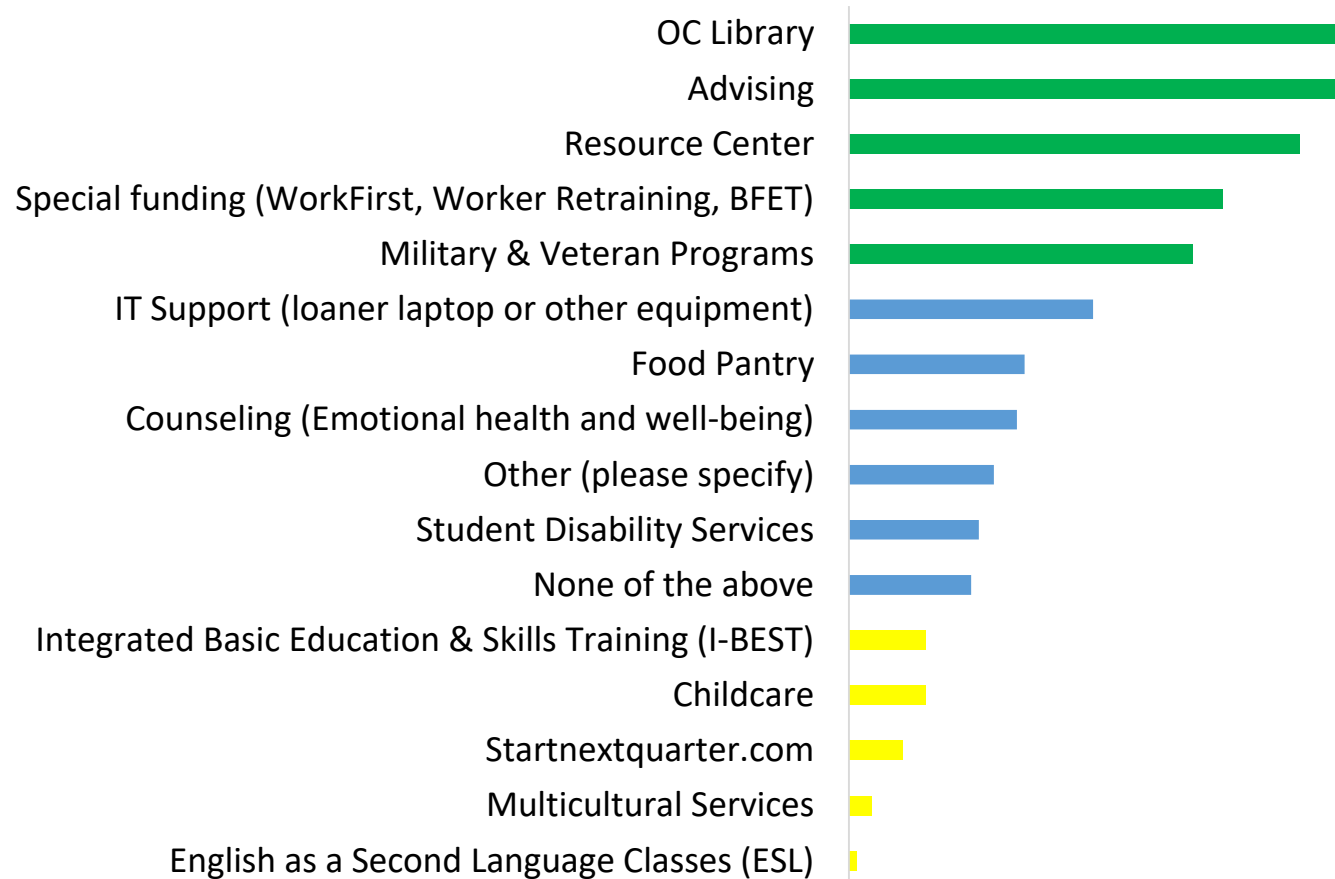

Where you able to find your first choice program at Olympic College (in other words, is the program you're currently taking your first choice for an educational program?)

What program were you looking for or what program(s) do you think Olympic College should add?

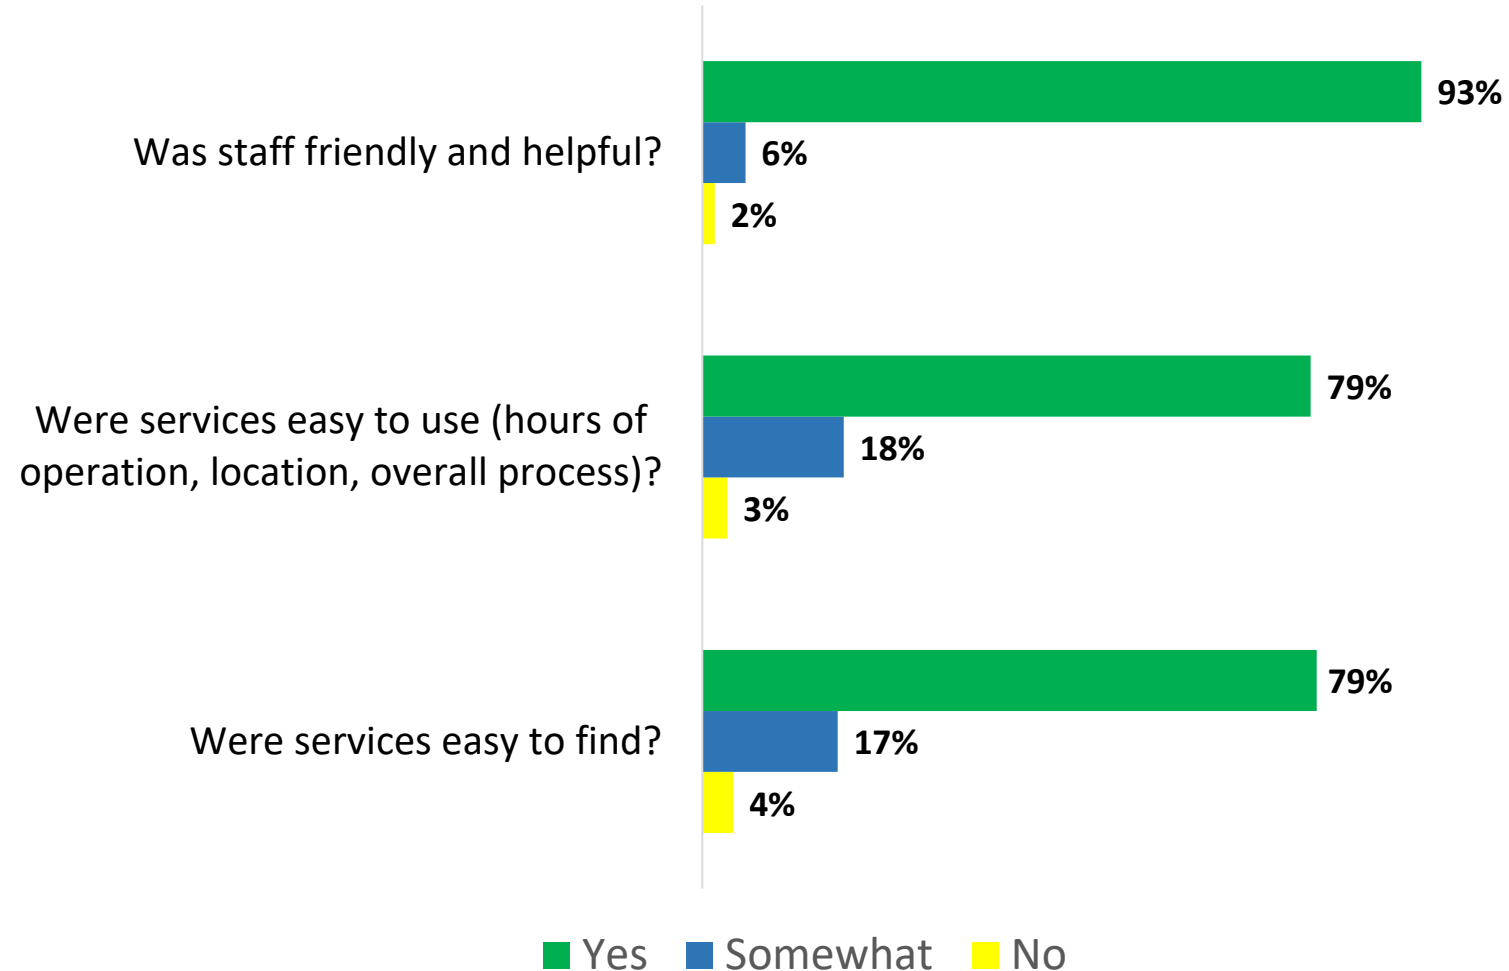

What services have you used at Olympic College to help you succeed in meeting your educational goals? Select all that apply.

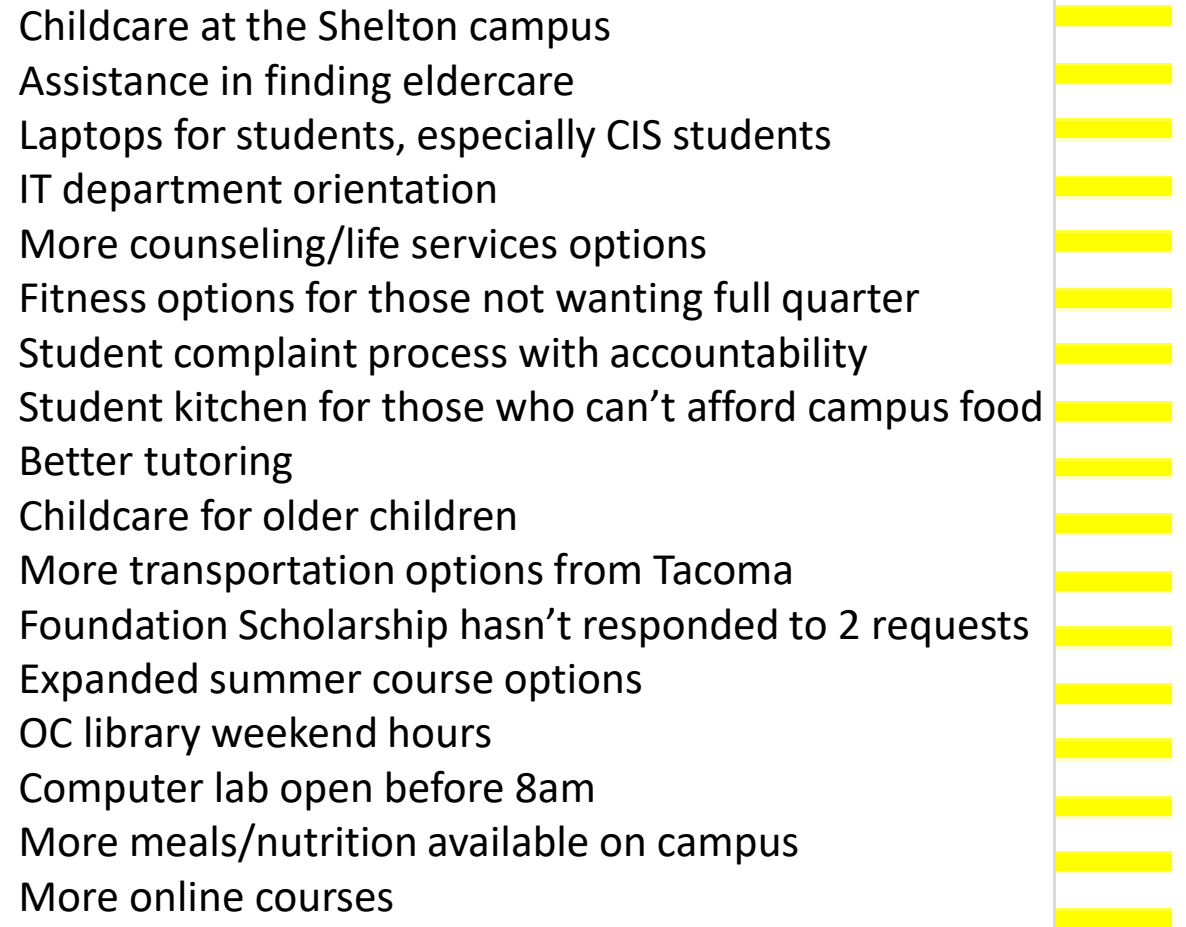

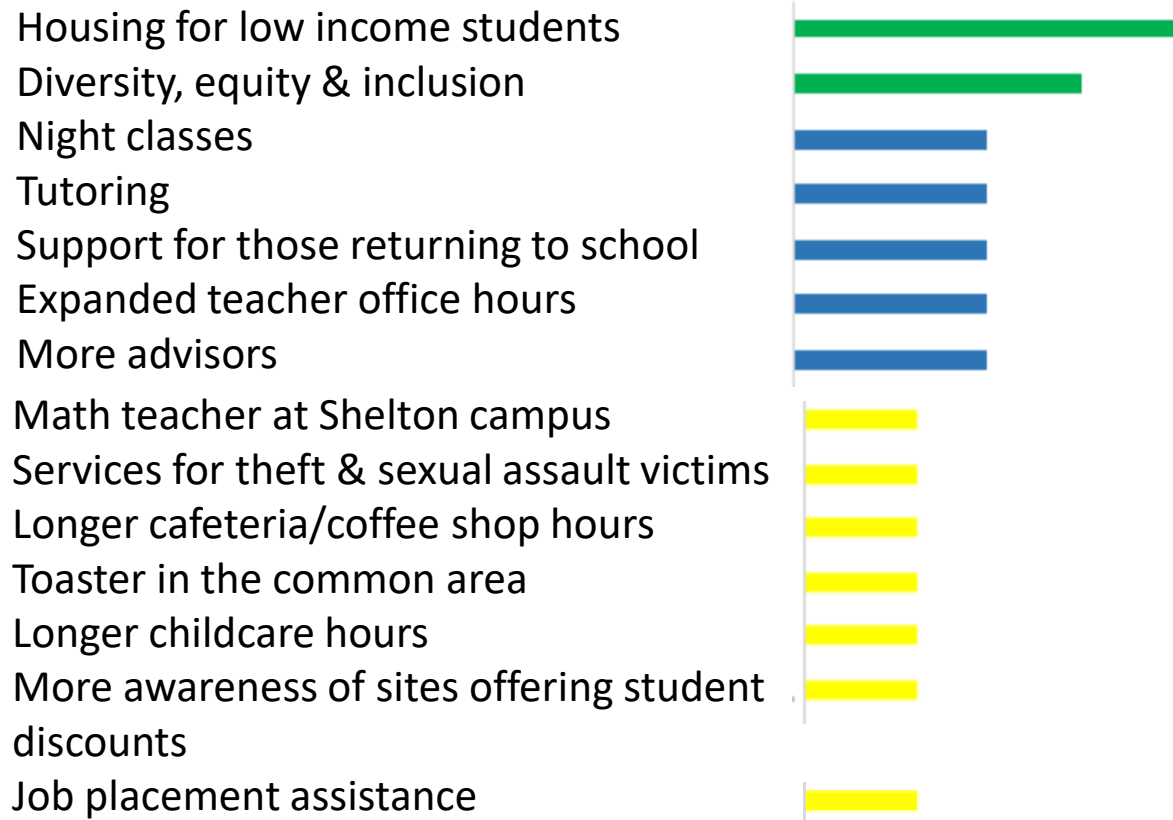

“Other” responses:

- Career Center
- Tutoring Center
- Re-entry services
- Student Government OC helped fund my tuition
- Athletics Department
- Fitness Center
- Registrar/Admissions
- Assistance with gas money
- Testing
- Early Achievers

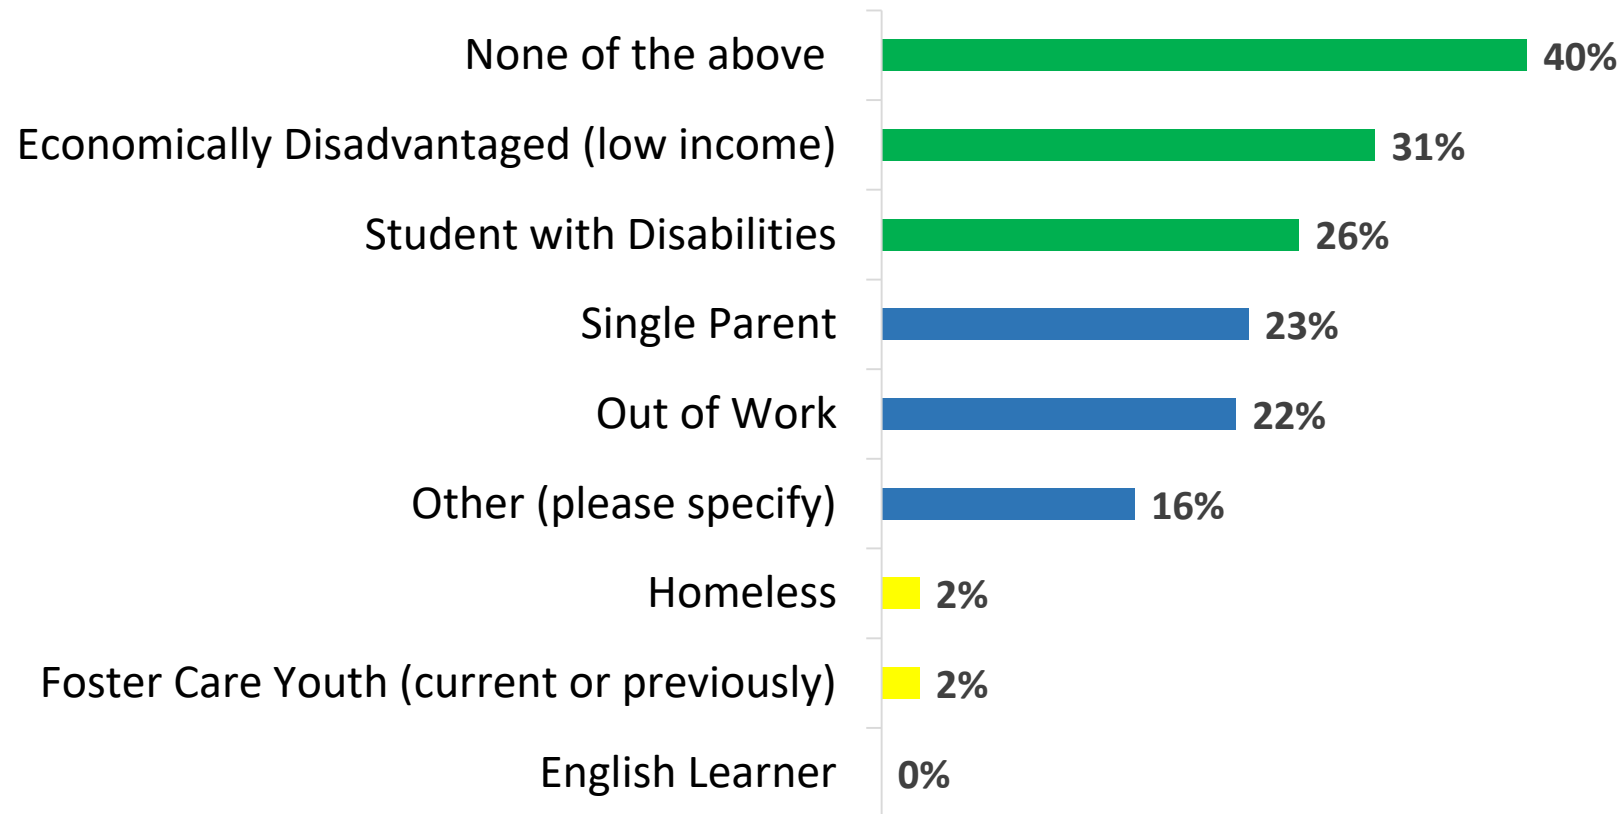

If you used any services in the previous question, please rate the following.

What services are not offered at Olympic College that would help you successfully meet your educational goals?

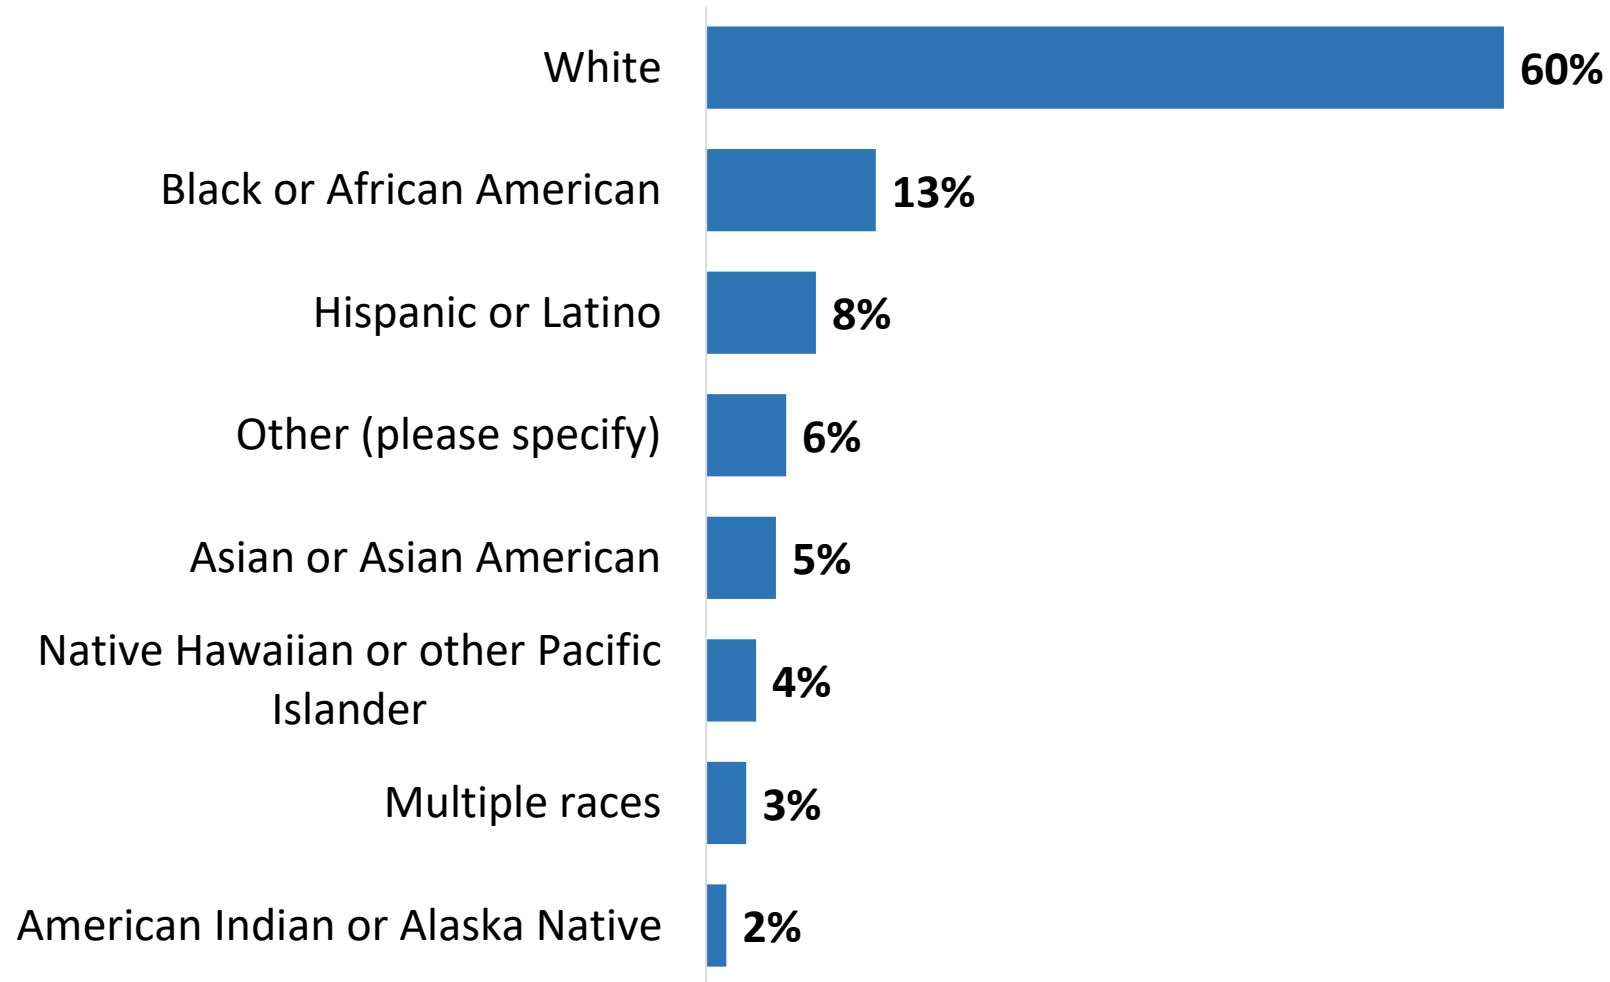

Do you identify as being part of any of the following groups (optional). Check all that apply.

“Other” responses:

- I identify as a human woman, widowed, disabled yet with a lot of tenacity who is trying to create a more profitable future in a avenue of work that fills me with passion & purpose outside of myself. Thanks!
- Older returning student
- I’m not homeless but I do have housing instability which causes me to be obligated to the people providing me with housing.
- Veteran
- Recovering drug addict
- Felon
- Have some medical issues
- Returning student
- LGBTQ+
- Senior Citizen
- Kitsap Mental Health Client
- Living with grandparents
- Self-employed

What is your race (optional)?

Is there any additional information you would like to share with Olympic College?

- I am very grateful for all of you @ Olympic College. I came back to school after 30 years --basing my decision to do after reading/meeting-- the inviting article by Mr. Tim Hagan (Film Dept.). There is such an supportive, welcoming, firmly factual environment as one of your students that I am able to stay assignment focused and staying confident of my future abilities to complete my courses in my first Fall Quarter (I am holding a 3.9 GPA, yeah!)
- You guys keep up the great work. I can't think of anything that needs improving. Everything is excellent. I love this school and feel proud being here.
- Have loved taking general psychology!!
- Been one of the best experiences of my life. Love Olympic college
- Love the campus and the hopeful encouraging atmosphere. More student housing availability would make a world of difference too! Student medical insurance if not already offered.
- Make class costs cheaper
- Getting more respectful staff
- I wish the class times offered in my program were more varied, many required classes I need to take always happen at the same time.

- I would like to make people aware of the proposed changes to the FICO score formula so they can make better financial decisions. the FHFA updated in September that they want to do more public outreach to the potential impacts of this change. I think this would be a good time to advocate for people that will be negatively impacted AND to advocate of impacts not yet knows based on current models.
- I think the online CIS classes are great but there are other topics that need work. Sociology & Math are two classes that I have taken that need work in order to help students be successful.
- You are all doing a wonderful job!
- No, just a warm thank you for all they do for the student's success.
- You are great, you are changing my life, thank you
- Worker Retraining and disability center have helped me gain the courage to move forward
- Teachers only want to give the information but not help students fully understand it. Teachers are not understanding of students with children and full time employment. Attending in person has been an issue for me and teachers don't accept late assignments under any circumstances
- Need to do a better job of advising students in CIS related fields. There are some classes that need to be taken prior to others, and the advisors have no idea how help you with CIS schedules in that regard.

- Very peaceful campus.
- Not that you'd like to hear
- Olympic College displays a lack of interest in providing real end results and engages in mostly performative acts of self congratulations, or operating within the realm of the barest minimum to manage appearances. The result of this over-arching behavior provides a campus which is unhealthy and unsafe to attend. It provides classes which are seemingly not reviewed, faculty which are apparently without repercussions for their actions (no matter how egregious so long as it is not public). And yet, the lack of accountability the school, as an organization, has to the students and the community provides a shield to the individuals making these decisions.
- Simply I wish they would give more option in the way of Bachelor programs.
- Thank you . I just St want everyone to know how grateful I am for them making this a transition a seamless one
- I am a student at Olympic college and I tried getting resources to help financially but because I'm on SSI there weren't many resources.
- I am enjoying my experience at oc. It was easy to enroll and start my classes. My professors are helpful and the courses are interesting and challenging.
- Good job.
- I like OC

- I have been trying to make up for my failed business degree and am so grateful for Olympic College decision to bring culinary from vocational to a ATA.
- Thanks for everything
- It's been a fun journey getting to where I'm getting, close to reaching my goal, my career. Thank you all so much!
- We need better cooperation with Mason and Kitsap transit systems to provide more comprehensive routes between Shelton and Bremerton. All my classes are at night, so I have no way home using transit and have to have someone pick me up in Bremerton and drive me back to Shelton. The bus can get me there, but not back.
- Keep up the great work
- I am so grateful for the education I am receiving here.
- I've done all online so far as I live towards Seabeck.

- I feel every student should have an advisor. mine sadly passed away my first quarter, i am now in my 5th, and just got a person assigned to me. I went to advising every quarter because I needed help signing up for classes. I didn't know what classes I needed, when to take them, how to register, how to use the catalogue, and because of not knowing these things and being a student who fell through the cracks, my dreams of walking a stage with fellow students and graduating on time doesn't look like it will happen. I'll still graduate and get my degree, and I suppose that is the most important thing, but as a student who dropped out of HS and obtained her GED, I always dreamed of walking the stage in full regalia, in front of loved ones, graduating with my fellow students. I'm 50, so this was huge for me, I feel if the student success coaches were better trained in knowing what classes actually met what requirements, I would have been able to graduate on time. every time I went to advising for help, I would point out my advisor passed and I was without one...to which I was told "yes, that was sad, you'll get a new one" I was never notified of my advisors passing until I was at least in the middle of my 2nd quarter, and nobody followed through with me to see if I needed anything in between advisors, even though at every meeting, I would say, 'I don't know what to take, I don't know how to register, and I don't know how to get to or use the catalogue" they simply did it for me, it would have been nice to have been shown how to do these things. When I left school, we were still using DOS and had just upgraded from floppy disks to 3.5 disks....my whole working career in healthcare, was paper charts, fax machines, computers were used by managers or unit secretaries...there is a class on how to use canvas, and how to be successful with college, maybe adding catalogue tutorial, and how to find what classes you need and in what order could be done so we have all the info we need to be successful with college, and how to register for them.
