Hello, this is Munghoon Cho from South Korea. I am a new president of International Club for this year. This year, Vy Le from Vietnam serves as a Secretary and Yuri Mima from Japan serves as a Media Coordinator. Our mission is to welcome and support international students through their cultural and educational adjustment in the United States, and to help them be a part of global community at Olympic College.

In the previous International Cafe, we all had a blast with origami. This week, we are going to make Dalgona coffee (Korean whipped coffee). Personally, there are so many good memories in club activities, and I have been getting lot of help from the club especially with cultural adjustment in the U.S.

Join the club to learn about various cultures and traditions, and to enjoy the various fun activities!
- Munghoon (South Korea)
**Back to School International Virtual Lounge**

Back to School International Virtual Lounge was wonderful!! I had the same feeling when I first participated, and they made me fun:) Student Office Assistants are really kind and friendly. Therefore I was nervous before coming in, but I was able to relax and get excited. In addition, we can share each other’s update and play games. In this lounge, you can make friends with students from other classes and countries. You can also learn anything through games such as American states and adjectives. You can also enjoy studying, right?) Let’s meet us in the International Virtual Lounge on Zoom! - **Mayu (Japan)**

I have participated in the International Virtual Lounge a lot since spring. I’m currently living in Japan, so I didn’t have any opportunity to communicate with students from other countries or to speak English. At first, I joined the lounge just for opportunity to interact in English, but it was actually beyond my expectation; not only did I get a place for English but also I made many nice friends whom I’ve never met yet in-person. Although we’re all spending difficult time right now, you can find a joy from the difficulty and experience what you probably wouldn’t have done in normal daily life. - **Yoko (Japan)**

**Meet Our New Office Assistant**

Hello everyone! My name is Taihei Mitsuishi, and I’m from Tokyo, Japan. I am a new student office assistant starting this fall. This is my second year at Olympic College. I am currently majoring in Business.

I am excited to be a part of the International office team because I am going have a new experience which is a good opportunity to build a lot of skills for my future career.

I am sure a lot of international students have been struggling with OC life or cultural differences between the U.S. and your home country. I personally had a hard time getting used to it, too. I am more than happy to help and support you with anything so that you can feel confident and comfortable with studying at OC. Stay safe and have a wonderful day! - **Taihei (Japan)**
