OC is the policy of Washington’s community and technical colleges to provide equal opportunity in education regardless of race, ethnicity, creed, color, national origin, sex, marital status, sexual orientation, age, religion, genetic information, gender identity, veteran status or the presence or absence of any sensory, mental, or physical disability.
New vice president looks to build inroads with students

As her vehicle crested the Cascade Mountains near the top of Snoqualmie Pass, Cheryl Nuñez was awestruck by the panoramic beauty of the region. The cross-country trek from Cincinnati, Ohio to Bremerton, provided Olympic College’s new Vice President for Equity and Inclusion ample time to reflect on the experiences that led to this new chapter in her career and the possibilities that lay ahead.

Cheryl’s arrival was perfectly timed. Her first full day on campus coincided with the college’s second annual Diversity Conference. More than 230 participants and presenters from around the nation converged on the Bremerton campus for two days of keynotes, discussions and workshops about multiculturalism, social justice and diversity.

“Like countless others I’ve spoken with, I found the concurrent sessions, keynotes and networking opportunities thought-provoking and timely,” she wrote in an email to college staff who organized the event. “I can’t think of a better forum in which to be introduced to the OC community.”

The road out west
Cheryl comes to OC by way of Xavier University where she served from 2005 to 2013 as the university’s first Chief Diversity Officer. There, she implemented a Strategic Plan for Diversity, developing many of the tools and processes necessary to foster an inclusive climate and culture centered on student success and achievement.

Prior to joining Xavier, Cheryl held a similar role as the Director of Affirmative Action and Multicultural Affairs at Northern Kentucky University (1995-2005). In that role, she helped institutionalize multiculturalism in all aspects of college life, while overseeing Equal Employment Opportunity and Affirmative Action compliance.

These experiences, along with various roles in K–12 and graduate education, have informed her broad understanding of the systemic challenges to ensuring all students have equal opportunities for achieving educational excellence. She attributes her preparation for that work to the rich intra- and intercultural experiences that have honed her ability to negotiate complexity, understand divergent perspectives, build effective relationships, and apply an equity lens to the strategic work of organizational change.

“Cheryl’s experience aligns closely with work we’ve done to include diversity in our core themes and strategic goals. This will help us to close a widening opportunity gap while working to ensure all individuals have the ability to achieve their academic goals,” said Olympic College President Dr. David Mitchell.

Forging new roads
Cheryl, whose adult daughters are still in the Midwest, is looking forward to laying down roots in the Pacific Northwest and building community at OC. As its first Vice President for Equity and Inclusion, she will lead the college’s efforts to implement a strategic diversity and equity plan.

In addition to serving as OC’s chief diversity officer, she supervises Human Resource Services, and Communications and Web Services, and coordinates college-wide efforts pursuant to Title IX. While Title IX is a federal law prohibiting sex- and gender-based discrimination in educational institutions receiving federal financial assistance, Cheryl hopes to elevate the conversation about gender equity beyond a focus on mere compliance.

“Our goal as a community is to maintain safe and respectful learning and working environments that reflect our mission, vision, and values. To do so, we must develop a comprehensive approach to preventing, responding to, andremedy any form of discrimination, violence and mistreatment that poses a threat to our collective success and well-being.”

Moving forward
Incoming student body president Drayton Jackson is thrilled the college hired Cheryl to lead its equity and inclusion program.

“It shows that we are ready to move to a place where the college represents what life is really like today,” he said. “To compete with other colleges we have to see ourselves as part of a global society.”

Now that the road has led Cheryl here, she is looking for opportunities to support and strengthen existing programs and initiatives in a manner that will both address the achievement gap and other unacceptable disparities, and enhance the engagement and success of all stakeholders.

“The work of equity and inclusion is not a zero sum game. Fostering the college’s capacity to advance and sustain institutional objectives benefits all of us, especially the students who are at the center of our efforts,” Cheryl said. “I’m looking forward to collaborating with members of the campus community to ensure they all have the opportunity to succeed in college and beyond.”

Cheryl Nuñez talks with John Adamson and Chris Butler-Minor, Western Washington University students in the Huxley College of the Environmental, Environmental Sciences B.S. program at OC Poulsbo.
College Instruction Center construction is underway!

Students returning to campus this fall and new students to Olympic College will notice big changes when classes start on Sept. 21. Construction of the College Instruction Center (CIC) begins in mid-August.

The CIC is located near the northeast corner of campus in a portion of the S-4 student parking lot. Construction will result in the loss of 244 spaces initially. To offset lost parking, the college is converting several pieces of land it owns and leasing others until a new parking lot is built where the current Art, Music and Theater buildings are located.

The map to the left provides student and general parking locations and details.
