I am proud to announce that Olympic College was named today as one of ten finalists for the Aspen Prize for Community College Excellence, the nation’s preeminent recognition of high achievement and performance in America’s community colleges.

The Prize, awarded every two years, recognizes outstanding institutions selected from an original pool of more than 1,000 community colleges. With a singular focus on student success, the Prize assesses community colleges’ achievements in four areas: student learning, certificate and degree completion, high rates of employment and earnings for graduates, and high levels of access and success for minority and low-income students.

Olympic College was selected as a finalist because:

“Olympic College does an exceptional job meeting the growing demand for higher education in its community and among its students, over two-thirds of whom are the first in their families to attend college,” said Josh Wyner, Executive Director of the Aspen Institute’s College Excellence Program in Washington, D.C. “With graduation rates on the rise and programs aligned to workforce needs, Olympic is showing how concerted, college-wide efforts can deliver what students need most.”

Olympic College stands out as one of the nation’s top community colleges for many reasons, including:

• Steadily improving retention of some of the least academically prepared students (retention rate—57% compared to 52% nationally)

• Close ties with local industry reflected in dozens of programs in skilled trades, from which 90% of students complete and 100% are placed in jobs.

• Strong, well-established pathways to a bachelor’s degree, including a collaborative engineering program at Olympic College in Bremerton.

Olympic College will now enter the last stage of the competition for the $1 million prize fund that will be awarded in March 2015 in Washington, D.C. to the winner and up to four finalists-with-distinction.

Each and every faculty and staff member at Olympic College should be very proud of this recognition of our collective efforts to make our community college one of the best in the nation!

Welcome to OC! Here’s what you need to know about parking...

- Parking permits are **required** on all Olympic College campuses, at all times. Your permit should be visible at all times. If you drive a different vehicle to campus, you need to obtain a temporary permit for it.
- **To obtain a parking permit, you will need:** your OC student ID, current vehicle registration, and proof of paid tuition from the Cashiers Office.
- Parking permits are required to be affixed to the **exterior rear window** of the vehicle, on the lower right passenger side. Failure to do so may result in a citation. Taping the permit to the inside of your window may also result in a citation.
- **Visitor parking is for visitors only,** not students or staff. You are **not** a visitor if you are a student or staff member. Visitor, Handicap, and Car Pool parking are enforced 24/7.
- Parking permits are **not transferrable** to other vehicles, or other students per OCP 200-16.
- **Back-in and pull-through parking is prohibited.** Park within your parking spot, **not** on the lines of the spot next to you. **Student lots** at OCB have **white lines,** **employee lots** have **yellow lines.**
- **Vehicles** found to be blocking or restricting access of other vehicles or emergency response will be **impounded** at owners expense.
- Vehicles that are issued multiple citations are also at risk of being impounded at owners expense.
- If you receive a **citation,** you can **appeal** it. Search “parking” on the main OC website. You will need your license plate # and citation #. “I didn’t know” and “I forgot” appeal requests are unlikely to be granted. **Please note:** Campus Safety Dispatch staff are mostly OC student employees. Be kind to them when discussing your citation.
- It is prohibited to leave animals in vehicles while parked on campus. Please leave animals at home.

Olympic College Parking Policy can be found on the OC website by searching “Parking Policy 200-16” and also via this link:
