On July 10th, 2020 Office of International Education and Study Abroad came together with the graduating class of 2020 and their family members, for what I would term as a beautiful celebration of achievement. This year’s graduation was different as we could not celebrate in person with our graduates, however, one thing doesn’t change, and that is how proud and excited we are for this graduating class of 2020. Like birds, they are spreading their wings and soaring through high skies and all we can do is stand from a distance and admire their passion and commitment as they continue to their next phase in life. We would like to congratulate and wish them all the best!
