Big things are cooking in OC’s “kitchen” this fall

Olympic College is home to a wealth of award-winning programs and the College’s Culinary Arts Institute is no exception.

Earlier this year, OC received the Higher Education Recycler of the Year award from the Washington State Recycling Association. Culinary Arts Professor Chris Plemmons, CEC, AAC made the trip to Pasco, WA to accept the award on behalf of OC.

“This was very much a campus-wide award,” says Plemmons. “The Sophia Bremer Child Development Center, Sustainability Task Force, Biology faculty, Art faculty, and others played a major role in this.”

Culinary's contribution to the award includes the food waste composting program launched in 2015. Each workstation in OC's large commercial kitchen classroom has a food-grade bucket to collect scraps, which are then composted and sold throughout the county by New Day Recycling.

The Culinary program recycles 300-400 pounds of pre-and post-consumer recyclables a week during the academic year. OC is working with New Day Recycling and Kitsap County on a plan where a portion of the compost would come back to the College for use as fertilizer by the Facilities Department Grounds Crew.

Other elements of the award-winning recycling program include 3D signage developed by OC students, an on-site composting program in the Sophia Bremer Child Development Center, and yard waste recycling from Facilities Grounds Crew, which also uses zero emission electric utility vehicles that minimize carbon emissions on campus. Also mentioned in the award was a mini-library reading shelter and “Snow Fence” sculpture made by art students using upcycled skis. Another element of the programs is the Barner Learning Landscape, featuring a 2.5-acre multidisciplinary outdoor learning lab where students conduct research and service learning.

Culinary Art received several other awards in 2017 including the Best School Presentation at the Governor's Ball in February, and 2nd place in the 69th Annual Armed Forces Festival Culinary Arts Competition in May.

“The recognition truly is a reflection of our students. They are the ones doing all of the work for these events, from concept to execution,” said Plemmons.

Students looking to pursue an education in Culinary Arts will be hard-pressed to find a better option than OC, which offers numerous paths to completion. In the Sous Chef Associate in Technical Arts (ATA) program, students gain skills to excel not only in the kitchen but also in the office environment or “back of the house” as it is called in the restaurant industry. Additionally, the College also offers certificate programs that can take just a few quarters to complete.

The Culinary Arts Institute incorporates several unique and engaging learning experiences including the four-course international lunch, served in OC’s Fireside Bistro featuring a restaurant atmosphere with tableside service. Each year, the Institute hosts a “Food Truck Rumble” where students conceive and prepare small bites like those you would find at a food truck.

In addition to the comprehensive curriculum, students gain real-world experience working at numerous on-campus events catered by the Institute and at the Olympic Café where an ever-changing menu of breakfast and lunch selections are served.

Whether you’re considering a career in the restaurant industry, catering or hospitality management, the OC Culinary Arts Institute has something for everyone. Learn more at, olympic.edu/culinary-arts.

Fall Preview 2017-18

OC recently completed or is wrapping up construction on several projects that promise to change the landscape at all three of our campuses. And new academic offerings will make attaining a college education, more accessible than ever.

New Buildings

College Instruction Center
This 70,000 square-foot building, scheduled for completion this fall, provides a new home for art, music, theater and the Physical Therapist Assistant program at the Bremerton Campus. It provides nursing simulation labs, where students gain hands-on experience in a hospital-like environment. The state-of-the-art theater offers 276 seats for performances, lectures, classes and so much more. It will definitely be a gathering place for members of the college and the community alike. Stay tuned for an announcement about the upcoming ribbon cutting ceremony.

Electrical Engineering Building
In 2016, partner institute Washington State University added an Electrical Engineering bachelor’s degree program in addition to Mechanical Engineering which has been available at the Bremerton Campus since 2010. For the past year, the two programs shared a space. That all changes with the purchase and recent remodel of the CENCOM building, which at one time was a toll-booth for the Warren Avenue Bridge.

John Bremer Welding Center
Our Shelton campus received a tremendous upgrade with the completion of its newest building. The John Bremer Welding Center launched with a soft opening this summer, while crews complete the finishing touches. This $1.3 million facility was made possible by a generous donation from the Bremer Trust, a philanthropic organization created by descendants of William and Sophia Bremer, founders of the City of Bremerton. This 2,600 square-foot building includes 16 welding stations, office space and storage. OC thanks the Bremer Trust for their ongoing support of the College.

Poulsbo Campus Modular Building
This Fall, OC completes work on a new modular building at its Poulsbo Campus. This high-quality 2,600 square-foot facility is designed to match the aesthetic of the main campus building. It provides more classroom space for our growing partnership with Western Washington University on the Peninsulas.

New Programs

Digital Filmmaking
OC’s newest bachelor degree program, the Bachelor’s of Applied Science in Digital Film Making launches this fall. The program features industry-professional faculty who are producing feature-length films that are playing in theaters and streaming on popular new-media platforms like Netflix and Amazon Prime. The program is located in the College Instruction Center, which means student have access to brand new equipment and facilities. Visit Olympic.edu/filmmaking to learn more about this incredible new program.

Evening Hybrid Associate Transfer Degree
To meet the growing demand for classes offered at alternative times, OC created an evening hybrid program where students meet up to tow night a week to complete all of the classes needed to transfer to a university. Students meet in person and online and have full access to all of the services available to students attending by day.

OC Classes offered at Chief Kitsap Academy
At OC, we’re committed to ensuring our programs are open and accessible to all residents of Kitsap and Mason counties. The College is partnering with the Suquamish Tribe to offer classes at the Chief Kitsap Academy on the Port Madison Indian Reservation. Initial courses scheduled to be offered include computer literacy, math, Northwest art history and more. These classes are available to members of the Suquamish Tribe and the community.
