Meet Marty

New Olympic College President, Dr. Marty Cavalluzzi, is on a mission to help students achieve their dreams.

Adding to the challenge are the complex admissions, registration and financial aid forms students must complete. For many students, it can feel like they have to jump through numerous hoops before being welcomed into the college community.

He looks to the airline and healthcare industries for inspiration. Their websites and apps often add value to the customer experience, offering information and services tailored to each customer’s specific needs. Marty hopes to leverage technology in a similar way at OC, making it easier for students to track their progress through the college via the OC website or an app.

Achieving the Dream

To help overcome these and other challenges, OC is looking to Achieving the Dream, a national network of more than 220 community colleges dedicated to improving outcomes for all students, with an emphasis on low-income students, first-generation students and students of color, groups that have been traditionally underserved at all colleges. Achieving the Dream is a transformational framework with a laser focus on helping more students achieve their goals.
For years, community colleges focused on enrollment as a key indicator of success. Today, the emphasis has shifted to program completion. Through Achieving the Dream, OC will take a holistic approach, analyzing the entire student experience from K-12 to enrollment at OC, degree completion, and the transition to a university or the workplace. OC will have access to assessment tools that will improve the availability and use of data to develop programs that increase the graduation rates of all students.

One such aspect of this work is Guided Pathways, a research-based approach that simplifies choices for students. Courses are grouped together to form clear paths through college and into careers, allowing students to complete programs without accruing unnecessary credits and student loan debt along the way.

“Students don’t easily understand how to access the college and they don’t see a clear path through it,” he said. “We’re going to make it clear for students to see their way through the college. Let’s help them get to where they are going more quickly.”

His favorite day of the year
As the 2017-18 academic year nears its end, Marty is excited for his favorite day of the year—graduation. He is already looking forward to leading commencement on June 17 at the Kitsap Sun Pavilion.

“This is my first graduation ceremony at OC, but I am sure I will get teared up seeing students walk across the stage,” Marty says. “Out in the audience will be their kids, parents, spouses and family members. To play a part in that, we are literally changing the world, one student at a time.”

On the Cover: Marty chats with OC students Dleshante Isaiah Miller, McKenna Kendall, Sydney Garrett.
