Community continues to support Shelton Campus after twenty years

It didn’t take long for community members in Mason County to rally around their neighbors in the aftermath of learning that two major employers were closing their doors. A Transitions Council of 16 partners was assembled to provide information, coordinated communications and reemployment strategies for workers from Simpson Lumber, Olympic Panel Products and others affected by the closures. Within weeks of the announcement, the Transition Council had organized numerous ‘Rapid Response’ sessions and ‘Navigating Change’ resource fairs.

This type of tight-knit community support is part of the appeal of living in a place like Shelton, which is the westernmost city on Puget Sound with a population of nearly 10,000.

According to OC Transitions Coordinator Rose Ferri who served on the council, the students from the Simpson closure have expressed their appreciation for the Worker Retraining program and staff for assistance with the college application process and understanding the state and federal requirements. Exclaimed one student, “without that assistance the process would have been overwhelming for a first-time college student and possibly a deterrent to my attending.”

OC Shelton is an ideal option for workers who are transitioning to new careers because it offers an array of programs tailored specifically to the needs of the community. Students can earn an associate degree locally, in addition to professional-technical degrees and certificates in trades such as welding where demand is high and the pay is good. With support from OC’s Workforce Development programs, recently unemployed workers may qualify for paid tuition, books and fees for their initial quarter.

“I think students really appreciate the intimacy of the smaller campus. We offer all of the services and support systems you would expect from a larger college but with more of a family feel,” says OC Shelton Campus Director Teresa McDermott.

With such a supportive community in place, it should come as no surprise that Mason County residents were instrumental in securing funding for the current OC Shelton campus on Alpine Way, which is celebrating its 20th anniversary. The relocation effort began in 1990 with a groundswell of public support for a campaign dubbed “Building for our Futures” which raised $1.5 million to help fund the new facility.

From the time of its inception in 1968 until 1980, OC Shelton had relocated no less than four times. That all came to an end in 1995, with the completion of phase one of the project – the main Shelton campus. The transformation continued in 2003 with completion of the Johnson Library, the second phase of the project.

“Graduates of our programs are going out into the community and making a difference as workers, volunteers and leaders. It really is rewarding for the College to be a part of their success.”

OC Shelton students work at the dry-erase board in professor Carmen Hoover’s class.
The library was named for Wes Johnson, a long-time Mason County resident and entrepreneur who gifted part of his estate to the College in honor of his deceased wife, Frances. A state grant and a generous gift from local real estate developer Richard Kramer combined with Johnson's gift provided the necessary funding for this excellent addition to the Shelton campus and community.

In 2004, the transformation was complete with the remodeling of the main Shelton campus, thanks in part to funding secured by then U.S. Congressman Norm Dicks. The newly remodeled facility was named the Palmer Student Center, in memory of Dean Palmer, who was a professional photographer in the Shelton-Mason county area and president of Friends of Olympic College Shelton, a group that was instrumental in generating support for the new campus.

Today, OC Shelton is a vital part of the region’s academic and economic revitalization. The College recently received funds from the Bremer Trust, a philanthropic trust formed by descendants of the City of Bremerton founders, to construct a new welding shop on the main Shelton campus. Construction of the new welding shop is scheduled to begin this summer with an estimated completion by 2017.

The College continues to expand its offerings thanks to a recent partnership with Mason Transit Authority. OC is offering several courses at the state-of-the-art Transit-Community Center (T-CC). In the computer lab, students may access hybrid online/in-person classes and other College resources and services. Also available are community education courses in distilling, culinary arts and more.

The first wave of Culinary Arts classes offered in the T-CC’s 1,300 square foot commercial kitchen were a huge success and demonstrate the effectiveness of this multi-purpose facility.

With the new Sierra Pacific Industries mill set to open in 2017 and the expansion of programs and facilities at OC Shelton, the future is once again looking bright for this close-knit community.

“We truly are changing lives and strengthening our community through the work we do at OC Shelton,” McDermott said. “Graduates of our programs are going out into the community and making a difference as workers, volunteers and leaders. It really is rewarding for the College to be a part of their success.”

What began as a small offering of college courses at Shelton High School in 1968, has blossomed into a state-of-the-art campus serving more than 60,000 Mason County residents, with new facilities and partnerships on the horizon at OC’s Shelton Campus.
