A. New Business –

- Clubs ASL Club:** The advisor is the same but the students are all new. Involvement of hearing students with the deaf community. They want to show that the deaf community is similar to other communities. They want to combine the hearing community and the deaf community into one huge family. They want the club to have fun, learn something new and get to know new people. In the past they've done deaf panels showing students their life experiences. It was very successful and they ended up running out of chairs.

- Clubs: Armed Forces Club:** Want to buy 2x4 planks of wood to try and build their own game. Want to get spoons with fake eggs as well as potato sacks. Want to get bean bag sack games and a couple of other items to play on the grass. They want to have these games for Jaime's event. We are making this decision contingent on there being enough funds in the Club fund. This is being done through the Executive

Council meeting due to timing of the event and timing of Club Congress.

There are two different folders but after talking we will be making them the same. We will be making a press release. We are going to be making a letter to local queer communities. Had good feedback from the legislative forum. Student housing was big again. Great leap with Student Wellness center. It is moving forward. Administration is behind us. A design, layout and budget will be presented to us. They will be hoping for a chance between September and October to get ideas presented for new buildings. This building is dependent on Students voting.
