

Hello my name is Gehara I am in my second year at Olympic College working towards obtaining my Associates in Nursing. When I first started OC it was hard for me to balance being a student, a single mother, and an employee. I soon realized that Olympic College has many **resources** to help you get through your tough times. I have taken advantage of **tutoring** and the **writing center** they have helped me with several difficult assignments. One major tip I would recommend to be successful at Olympic College is to **ask questions**. Your professors, advisors, and support staff are here to help with your success.

**GEHARA**
