

Hafa Adai my name is Hyoseok, I am a recent graduate of Olympic College Class of 2020! During my time at OC I wanted to make friends and memories, I did both. Getting involved on campus through **working** on campus, **volunteering** on budget and tenure committees as well as a math tutor, **participating** in several student engagement programs such as the International Club and Island Roots, and **attending** student leadership conferences like the Students of Color Conference helped me excel in my studies, develop leadership skills, and meet some incredible people.

My advice to you while you're here is to take advantage of every opportunity and enjoy yourself, you will not regret it. Have fun and good luck!
