ORGANIZATIONAL LEADERSHIP AND RESOURCE MANAGEMENT

Explore your opportunities in an exciting career pathway!

This two year program is designed to prepare students for leadership roles in private and public service environments.

Students can earn short-term certificates to add value to their career while building their way toward a Bachelor's Degree in Organizational Leadership.

We assist students by providing:

- Basic leadership skills
- An understanding of their role in influencing groups of individuals to accomplish organizational goals while adopting strategies that foster critical thinking
- The ability to lead change within organizations

In the OLRM program, students can earn short-term certificates with classes that count toward an associate's degree. Through a stackable model, students enter a pathway towards higher levels of learning while documenting their achievement at each step of the way, thus adding value to their career and educational goals.

Students who complete an OLRM associate's degree and meet program criteria are eligible to apply for the Bachelor of Applied Science in Organizational Leadership and Technical Management.
