As a part of International Education Week, our annual Global Night on Nov.16th took place at our new CIC theater for the first time. This year’s performances included Korea’s K-pop dance from S.Korea, Tinikling from the Philippines, and the 2020 Tokyo Olympic Gorin Ondo dance from Japan. During the spectacular traditional fashion show, OC students from various cultural backgrounds walked on the stage in their beautiful traditional cultural clothing. In addition, guests enjoyed learning about the significance of each performance from display boards the performers prepared. The entire show was incredible, and successful. And we loved seeing our students’ diverse cultures and different sides of students we usually don’t get to see. Siyi

K-pop (an abbreviation of Korean pop or Korean popular music) is a musical genre consisting of electronic, hip hop, pop, rock, and R&B music originating in South Korea.

In addition to music, K-pop has grown into a popular subculture among teenagers and young adults throughout Asia, resulting in widespread interest in the fashion and style of Korean idol groups and singers.

K-pop has now even spread outside of Korea, thanks to the Internet. People all over the world now enjoy K-pop, even though they don’t necessarily understand the words.
