In February, there were two cultural presentations. One was for Cambodia, another was for Mali. It is interesting to know new countries for me, especially the different customs and food. When they were talking about their countries, I noticed that they are proud of their countries and willing to share their culture to others. The more I know about their countries, the more I could talk with them. After listening to their presentation, I think maybe I would travel to their countries in the future!

—Hanchi From China
Hi everyone! It’s my pleasure to join the Language Sharing program and it was an unforgettable experience. Language is the key of cultures. It feels great to share my mother language with students that come from different places all over the world. I would like to do it again in the future. Thank you for inviting me!
—Charice from China

The scent of spring has already began to permeate the campus. OC International Club decided to celebrate last moments of winter before the winter ends. On February 29th, OC International Club members went to Bremerton Ice Center for skating. The main purpose of this activity was to promote friendship among the club members. Thanks to support of OC international advisor Hideko Lyle and officers, we all had a great joy for 2 hours with ice-skating. It was such great way to say goodbye to winter and hello to picnic season!
